

[In accordance with the criteria of Regulation No 1907/2006 (REACH) with further changes]

## Section 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

TRADE NAME: **NICOTINE POLACRILEX 20%**

Chemical name: 2-Propenoic acid, 2-methyl-, polymer with diethenylbenzene, compd. with 3-((2S)-1-methyl-2-pyrrolidinyl)pyridine

CAS No.: 96055-45-7

EC No: 619-191-2

Reach no.: not applicable (below 1 ton/year)

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: chemical industry.

Uses advised against: not determined.

### 1.3. Details of the supplier of the safety data sheet

Supplier: **CHEMNOVATIC Sp. z o.o.**

Address: Ludwika Spiessa 9, 20-270 Lublin, POLAND

Phone: +48 814754442;

E-mail address of the person responsible for the information card: office@chemnovatic.com

### 1.4. Emergency telephone number

112 (general emergency phone number)

## Section 2: Hazards Identification

### 2.1. Classification of the substance or mixture

Classification according to 1272/2008/EC

Acute Tox. 3 (oral) - Acute toxicity, category 3; H301

Acute Tox. 3 (skin) - Acute toxicity, category 3; H311

Eye Irrit. 2 - Eye irritation, category 2; H319

Skin Irrit. 2 - Skin irritation, category 2; H315

STOT SE. 3 - Specific target organ toxicity (single exposure), category 3; H335

Aquatic Chronic Toxicity, category 3; H412

This substance is not classified for its physical hazards under CLP.

### 2.2. Label elements

Hazard symbols and signal words

**DANGER**

Hazard statements

H301 Toxic if swallowed.

H311 Toxic in contact with skin.

H319 Causes serious eye irritation.

# SAFETY DATA SHEET

H315 Causes skin irritation.

H335 May cause respiratory irritation.

H412 Harmful to aquatic life with long lasting effects.

## Precautionary statements

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor.

P302+P352 IF ON SKIN: Wash with plenty of water.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

P405 Store locked up.

P501 Dispose of contents/container to a hazardous waste collection point.

## 2.3. Other hazards

This substance does not meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation. Product does not have endocrine disrupting properties. No other hazards to determine. This substance does not contain "Substances of Very High Concern" on the list published by the European Chemicals Agency (ECHA) pursuant to Art. 57 of the REACH regulation.

## Section 3: Composition/Information on ingredients

### 3.1 Substances

Chemical name	Percentage [%]	CAS	EC (EINECS)	Index No./ REACH Registration No.	Classification according to 1272/2008/EC
Nicotine Polacrillix	≤100%	96055-45-7	619-191-2	none/ not applicable	Acute Tox. 3, H311 LD50=300 mg/kg b.w. Acute Tox. 3, H301 LD50=100 mg/kg b.w. Eye Irrit. 2, H319 Skin Irrit. 2, H315 STOT SE. 3, H335 Aquatic Chronic 3, H412

Substance with a specific value at the Community level of the permissible concentration in the work environment.

### 3.2 Mixture

not applicable

## Section 4: First aid measures

### 4.1. Description of first aid measures

As a general rule, in case of doubt, or when symptoms persist, always call a physician. NEVER make an unconscious person vomit.

**Skin contact:** immediately take off contaminated clothing. Wash out skin with plenty of water with soap. Consult a doctor immediately.

**Eye contact:** wash out with plenty of water with the eyelid hold wide open, for 10-15 min. Remove any contact lenses. Avoid strong stream of water-risk of cornea damage. Seek medical advice if necessary.

**Ingestion:** do not induce vomiting. Rinse mouth with water. Do not give anything to drink to an unconscious person. Consult a doctor – show the container or label.

# SAFETY DATA SHEET

**Inhalation:** remove to fresh air. Keep warm and calm. Consult a doctor, if symptoms persist.

## 4.2. Most important symptoms and effects, both acute and delayed

**Eye contact:** redness, tearing, mild irritation.

**Skin contact:** can cause irritation, breathing problems, dizziness, cramps, nausea, vomiting. It can be absorbed through the skin. At sensitive individuals may experience an allergic reaction.

**Ingestion:** nausea, vomiting. In extreme cases, after swallowing very large quantities of product, may appear **breathing problems, dizziness, disorders of the respiratory tract.**

**Inhalation:** following exposure to doses above permissible limits include: stimulation of breath, nausea, vomiting, headache, dizziness, diarrhea, tachycardia, increased blood pressure, sweating, salivation, burning sensation in the mouth, throat and stomach.

## 4.3. Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured.

## Section 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media: CO<sub>2</sub>, sand, dry chemical, water spray. Extinguishing media adapt to materials in surrounding.

Unsuitable extinguishing media: water jet – risk of the propagation of the flame.

### 5.2. Special hazards arising from the substance or mixture

May produce toxic fumes of carbon and nitrogen oxides, if burning. Do not inhale combustion products.

### 5.3. Advice for firefighters

Personal protection typical in case of fire. Wear suitable respiratory equipment. Cool down containers with water from safe distance to prevent bursting.

## Section 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. In case of large spills, isolate the exposed area. Ensure adequate ventilation. Avoid contact with skin and eyes. Avoid contact with spilled material. Danger of slipping, do not passed through spilled material. Wear adequate personal protective equipment. Do not allow the product to get into mouth.

### 6.2. Environmental precautions

In case of release of large amounts of the product, it is necessary to take appropriate steps to prevent it from spreading into the environment. Notify relevant emergency services.

### 6.3. Methods and material for containment and cleaning up

Soak up with liquid-binding material (e.g. sand, universal binding agent, diatomaceous earth) or pick up dry with a shovel. Collect spilled or scattered material in containers. Disposal in accordance with the local legislation. Clean the contamination place.

### 6.4. References to other sections

Appropriate conduct with waste product - see section 13. Personal protective equipment - see section 8.

## Section 7: Handling and storage

### 7.1. Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Avoid contact with skin and eyes. Do not inhale vapours. Ensure adequate ventilation. Before break and after work wash carefully hands. Keep not used containers tightly closed. Do not allow the product to get into mouth.

### 7.2. Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in cool and well-ventilated area. Keep away from food, beverages or feed for animals. After opening seal the container and store in an upright position to prevent leakage. Avoid heat and ignition sources

### 7.3. Specific end use(s)

Laboratory chemicals, production of a substance (liquid component. electronic cigarette's component)

## Section 8: Exposure control/personal protection

### 8.1. Control parameters

No substances are listed in the national list of substances with an occupational exposure limit.

DNEL: no data available

PNEC: no data available

### 8.2. Exposure controls

Use the product in accordance with good occupational hygiene and safety practices. Ensure adequate ventilation.

When handlings do not eat, drink or smoke. Before break and after work carefully wash hands. In the vicinity of the work should be installed safety showers and separate washer eyewash. At the exit of the room in which you are working with toxic materials should be at least one sink with brought to the warm water - for every twenty employees.

Hand and body protection

Wear the protective gloves (long-term exposure – butyl rubber, thickness: 0,3 mm, penetration time: >480 min., short-term exposure: nitrile rubber, thickness: 0,4 mm, penetration time: >30 min.) and protective clothing.

The material that the gloves are made of must be impenetrable and resistant to the product's effects. The selection of material must be performed with consideration of breakthrough time, penetration speed and degradation. Moreover, the selection of proper gloves depends not only on the material, but also on other quality features and changes depending on the manufacturer. The producer should provide detailed information regarding the exact breakthrough time. This information should be followed.

Eye/face protection

Wear tight safety glasses when there is a danger of possible eye contamination. Respiratory protection

In case of normal and as intended use, no respirator is needed. If exposure limits are exceeded, apply face mask with appropriate organic vapour cartridge.

Environmental exposure controls

Do not allow the mixture to contaminate surface water/ground water.

## Section 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

a) Physical state:	solid
b) Colour:	not determined
c) Odour:	characteristic
d) Melting point/freezing point:	not determined
e) Boiling point or initial boiling point and boiling range	not determined
f) Flammability	not determined
g) Lower and upper explosion limit:	not applicable
h) Flash point	not applicable
i) Auto-ignition temperature	not applicable
j) Decomposition temperature	not determined
k) pH	not determined
l) Kinematic viscosity	not applicable
m) Solubility	not determined
n) Partition coefficient n-octanol/water (log value)	not determined
o) Vapour pressure	not determined
p) Density and/or relative density	not determined
q) Relative vapour density	not applicable
r) Particle characteristics	not determined

### 9.2. Other information

No additional test results.

## Section 10: Stability and reactivity

### 10.1. Reactivity

Product doesn't undergo dangerous polymerization. See also subsections 10.3-10.5.

### 10.2. Chemical stability

The product is stable under normal conditions.

### 10.3. Possibility of hazardous reactions

Dangerous reactions are not known.

### 10.4. Conditions to avoid

Avoid direct sunlight and sources of ignition.

### 10.5. Incompatible materials

Strong oxidizers.

### 10.6. Hazardous decomposition products

Unknown.

# SAFETY DATA SHEET

## Section 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Toxic in contact with skin. Toxic if swallowed.

Product/Ingredient name	Species	Test	Route of exposure	Result
Nicotine Polacrilex	Rat	LD50	Oral	100 mg/kg
Nicotine Polacrilex	Rabbit	LD50	Dermal	300 mg/kg

#### Skin corrosion/irritation

Based on available data, the classification criteria are met. The substance causes skin irritation (category 2; H315), resulting in redness and discomfort upon contact.

#### Serious eye damage/irritation

Based on available data, the classification criteria are met. The substance causes serious eye irritation (category 2; H319), which may cause redness and discomfort in the eyes.

#### Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

#### Germ cell mutagenicity

Based on available data, the classification criteria are not met.

#### Carcinogenicity

Based on available data, the classification criteria are not met.

#### Reproductive toxicity

Based on available data, the classification criteria are not met.

#### STOT-single exposure

Based on available data, the classification criteria are met. The substance is classified as specific target organ toxicity (STOT), category 3 (H335), causing respiratory irritation.

#### STOT-repeated exposure

Based on available data, the classification criteria are not met.

#### Aspiration hazard

Based on available data, the classification criteria are not met.

### 11.2. Information on other hazards

Product does not have endocrine disrupting properties.

## Section 12: Ecological Information

### 12.1. Toxicity

The criteria for environmental toxicity are met. The substance is classified as Aquatic Chronic 3 (H412), which indicates that it is harmful to aquatic life with long-lasting effects.

### 12.2. Persistence and degradability

No data available.

### 12.3. Bioaccumulative potential

No data available.

# SAFETY DATA SHEET

**12.4. Mobility in soil**

Product mobile in soil and in water. Mobility depends on the hydrophilic and hydrophobic properties and conditions of biotic and abiotic soil, including its structure, climatic conditions, seasons and soil organisms.

**12.5. Results of PBT and vPvB assessment**

The product does not meet the criteria for PBT or vPvB in accordance with the criteria in Annex XIII of Regulation 1907/2006.

**12.6. Endocrine disrupting properties**

Does not possess any endocrine disrupting properties.

**12.7. Other adverse effects**

This product has no influence on the global warming or the ozone layer depletion.

## Section 13: Disposal considerations

**13.1. Waste treatment methods**

Disposal methods for the product: disposal in accordance with the local legislation. Store remainings in original containers. Do not empty into drains. Submit to neutralization by a licensed waste processing company.

Disposal methods for used packing: reuse/recycling/liquidation of empty containers, dispose in accordance with the local legislation. Do not dispose empty packing with regular household waste. Do not mix with other waste. Submit to neutralization by a licensed waste processing company.

Proper waste management of the substance and / or container should be determined in accordance with the provisions of Directive 2008/98 / EC.

## Section 14: Transport Information

**14.1 UN number or ID number**

1655

**14.2 UN proper shipping name**

NICOTINE COMPOUND, SOLID, N.O.S. (contains nicotine polacrilex)

**14.3 Transport hazard class(es)**

6.1

**14.4 Packing group**

III

**14.5 Environmental hazards**

Not applicable.

**14.6 Special precautions for user**

Use protective measures according to section 8

**14.7 Maritime transport in bulk according to IMO instruments**

Not applicable.

# SAFETY DATA SHEET

## Section 15: Regulatory Information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

**Regulation (EC) No 1907/2006** of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

**Regulation (EC) No 1272/2008** of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).

**Commission Regulation (EU) 2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

### 15.2. Chemical safety assessment

Chemical safety assessment was not performed for this substances.

## Section 16: Other Information

Version 4.3 new format of MSDS according to new requirements.

### a) legend to abbreviations and acronyms used in the safety data sheet

TWA	Time Weighted Average
PEL	Permissible exposure limit
TLV-C	Threshold limit value- Ceiling Limit
STEL	Short-term exposure limit
PBT	Persistent, Bioaccumulative and Toxic substance
vPvB	very Persistent, very Bioaccumulative substance
CAS	Chemical Abstract Service
EC No.	is a unique seven-digit identifier that is assigned to chemical substances for regulatory purposes within the European Union by the regulatory authorities.
LD50	lethal dose, the point where 50% of test subjects exposed would die
LC50	lethal concentration, the point where 50% of test subjects exposed would die
EC50	half maximal effective concentration
UN number	is four-digit number that identify hazardous substances
ATEmix	Acute Toxicity Estimates for mixture
PEB	permitted exposure for a biological material

### b) list of relevant H phrases, hazard statements, safety phrases and/or precautionary statements- full text

H301 Toxic if swallowed.

H311 Toxic in contact with skin.

H319 Causes serious eye irritation.

H315 Causes skin irritation.

H335 May cause respiratory irritation.

H412 Harmful to aquatic life with long lasting effects.

### c) trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

# SAFETY DATA SHEET

## d) other data

Classification was made on the basis of data on hazardous substances calculation method based on the guidelines of Regulation 1272/2008/EC (CLP).

The above information is prepared on the basis of current state of knowledge and relates to the product in the form in which it is used. Data relating to the product are presented in order to include safety requirements, and not to guarantee their particular properties.

In the event when conditions of application of the product are beyond control of the manufacturer, responsibility for safe use of the product is borne by the user.

The Employer is obligated to inform all employees who have contact with the product, about hazards and personal protection equipment specified in this material safety data sheet.

This material safety data sheet has been prepared on the basis of MSDS provided by the manufacturer and/or web databases and the binding regulations regarding hazardous substances and chemical agents.

The product is classified as hazardous. EXPOSURE SCENARIOS are not required.
