

# SAFETY DATA SHEET

[In accordance with the criteria of Regulation No 1907/2006 (REACH) with further changes]

## Section 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

NICBASE VG 72 mg

Diluted nicotine (72 mg/ml) in vegetable glycerine.

UFI: 3N42-Q0JU-Q00V-4N2Q

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: production of mixtures (liquid component).

Uses advised against: not determined

### 1.3. Details of the supplier of the safety data sheet

Supplier: **CHEMNOVATIC Sp. z o.o. Sp. k.**

Address: Dobrzańskiego 3/BS002, 20-262 Lublin, POLAND

Phone: +48 814754442;

E-mail address of the person responsible for the information card: office@chemnovatic.com

### 1.4. Emergency telephone number

112 (general emergency phone number)

## Section 2: Hazards Identification

### 2.1. Classification of the substance or mixture

Classification according to 1272/2008/EC

Acute Tox. 3 (oral) - Acute toxicity, category 3; H301

Acute Tox. 4 (skin) - Acute toxicity, category 4; H312

Acute Tox. 4 (inhalation) - Acute toxicity, category 4; H332

Aquatic Chronic Toxicity, category 3: H412

### 2.2. Label elements

Hazard symbols and signal words

#### Danger

Hazard statements

H301 Toxic if swallowed.

H312+H332 Harmful in contact with skin or if inhaled.

H412 Harmful to aquatic life with long lasting effects.

Precautionary statements

P280 Wear protective gloves/protective clothing/eye protection/face protection

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor.

P302+P352 IF ON SKIN: Wash with plenty of water.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P405 Store locked up.

P501 Dispose of contents/container to container for waste.

# SAFETY DATA SHEET

## 2.3. Other hazards

No information whether the mixture meets criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

## Section 3: Composition/Information on ingredients

### 3.2. Mixtures

Composition:

No.	Chemical name	Percentage	CAS	EC (EINECS)	Index No./ Registration No.	REACH	Classification according to 1272/2008/EC
1.	glycerine	94,21 %	56-81-5	200-289-5	none/ Glycerin is exempt from registration obligation		Not classified
2.	nicotine	5,79 %	54-11-5	200-193-3	614-001-00-4/ 01-2120066934-47-0004		Acute Tox. 2 H310; Acute Tox. 2 H300; Acute Tox. 2 H330; Aquatic Chronic 2 H411

Full text of H - phrases in section 16.

## Section 4: First aid measures

### 4.1. Description of first aid measures

**Skin contact:** take off contaminated clothing. Wash out skin with plenty of water with soap. Consult a doctor if irritation occurs.

**Eye contact:** wash out with plenty of water with the eyelid hold wide open, for 10-15 min. Remove any contact lenses. Avoid strong stream of water-risk of cornea damage. Seek medical advice if necessary.

**Ingestion:** do not induce vomiting. Rinse mouth with water. Do not give anything to drink to an unconscious person. Consult a doctor - show the container or label.

**Inhalation:** remove to fresh air. Keep warm and calm. Consult a doctor, if symptoms persist.

### 4.2. Most important symptoms and effects, both acute and delayed

**Eye contact:** redness, tearing, mild irritation.

**Skin contact:** can cause irritation, breathing problems, dizziness, cramps, nausea, vomiting. It can be absorbed through the skin. At sensitive individuals may experience an allergic reaction.

**Ingestion:** nausea, vomiting. In extreme cases, after swallowing very large quantities of product, may appear breathing problems, dizziness, disorders of the respiratory tract.

**Inhalation:** following exposure to doses above permissible limits include: stimulation of breath, nausea, vomiting, headache, dizziness, diarrhea, tachycardia, increased blood pressure, sweating, salivation, burning sensation in the mouth, throat and stomach.

### 4.3. Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured.

## Section 5: Firefighting measures

# SAFETY DATA SHEET

## 5.1. Extinguishing media

Suitable extinguishing media: adjust the extinguishing agent to the material collected in the environment.

Unsuitable extinguishing media: water jet - risk of the propagation of the flame.

## 5.2. Special hazards arising from the substance or mixture

May produce toxic fumes of carbon and nitrogen oxides, if burning. Do not inhale combustion products.

## 5.3. Advice for firefighters

Personal protection typical in case of fire. Wear suitable respiratory equipment. Cool down containers with water from safe distance to prevent bursting.

## Section 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. In case of large spills, isolate the exposed area. Ensure adequate ventilation. Avoid contact with skin and eyes. Avoid contact with spilled material. Danger of slipping, do not pass through spilled material. Wear adequate personal protective equipment. Do not allow the product to get into mouth.

### 6.2. Environmental precautions

In case of release of large amounts of the product, it is necessary to take appropriate steps to prevent it from spreading into the environment. Notify relevant emergency services.

### 6.3. Methods and material for containment and cleaning up

Soak up with liquid-binding material (e.g. sand, universal binding agent, diatomaceous earth). Collect spilled material in containers. Disposal in accordance with the local legislation. Clean the contamination place.

### 6.4. References to other sections

Appropriate conduct with waste product - see section 13. Personal protective equipment - see section 8.

## Section 7: Handling and storage

### 7.1. Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Avoid contact with skin and eyes. Do not inhale vapours. Ensure adequate ventilation. Before break and after work wash carefully hands. Keep not used containers tightly closed. Do not allow the product to get into mouth. Shake before use.

### 7.2. Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in cool and well-ventilated area. Keep away from food, beverages or feed for animals. After opening seal the container and store in an upright position to prevent leakage. Avoid heat and ignition sources. Store at 0-10 °C.

### 7.3. Specific end use(s)

No information about the applications other than those listed in subsection 1.2.

## Section 8: Exposure control/personal protection

### 8.1. Control parameters

Specification	STEL 15 min	TWA 8 hour
nicotine [CAS 54-11-5]	-	0,5 mg/m <sup>3</sup> (skin)
glycerol [CAS 56-81-5]	-	10 mg/m <sup>3</sup> (aerosol)

# SAFETY DATA SHEET

Please check any national occupational exposure limit values in your country for substance contained in this product.

## 8.2. Exposure controls

Use the product in accordance with good occupational hygiene and safety practices. Ensure adequate ventilation. When handling do not eat, drink or smoke. Before break and after work carefully wash hands. In the vicinity of the work should be installed safety showers and separate washer eyewash. At the exit of the room in which you are working with toxic materials should be at least one sink with brought to the warm water - for every twenty employees.

### Hand and body protection

Wear the protective gloves (long-term exposure - butyl rubber, thickness: 0,3 mm, penetration time: >480 min., short-term exposure: nitrile rubber, thickness: 0,4 mm, penetration time: >30 min.) and protective clothing.

The material that the gloves are made of must be impenetrable and resistant to the product's effects. The selection of material must be performed with consideration of breakthrough time, penetration speed and degradation. Moreover, the selection of proper gloves depends not only on the material, but also on other quality features and changes depending on the manufacturer. The producer should provide detailed information regarding the exact breakthrough time. This information should be followed.

### Eye/face protection

Wear tight safety glasses when there is a danger of possible eye contamination.

### Respiratory protection

In case of normal and as intended use, no respirator is needed. If exposure limits are exceeded, apply face mask with appropriate organic vapour cartridge.

### Environmental exposure controls

Do not allow the mixture to contaminate surface water/ground water.

## Section 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

a) physical state:	liquid
colour:	colorless to pale yellow
b) odour:	characteristic
c) odour threshold:	not determined
d) pH (20°C):	not determined
e) melting point/freezing point:	not determined
f) initial boiling point and boiling range (993 hPa):	not determined
g) flash point:	not determined
h) evaporation rate	not determined
i) flammability (solid, gas):	not applicable
j) upper/lower flammability or explosive limits:	11,3 %/2,6 % (for pharmaceutical vegetable glycerine)
k) vapour pressure (25°C):	3,18 Pa (for pharmaceutical vegetable glycerine)
l) vapour density (air=1):	5,6 (for nicotine)
m) density (20°C):	1,24 g/cm <sup>3</sup>
n) solubility(ies):	soluble
o) partition coefficient:	n-oktanol/water: log Pow: 1,17 (for nicotine)
p) auto-ignition temperature:	product is not self-igniting
r) decomposition temperature:	not determined
s) explosive properties:	not display
t) oxidising properties:	not display
u) viscosity:	not determined

**9.2. Other information.**

No additional test results.

**Section 10: Stability and reactivity****10.1. Reactivity**

Product reactive. See subsection 10.3-10.5.

**10.2. Chemical stability**

The product is stable under normal conditions.

**10.3. Possibility of hazardous reactions**

The product can react exothermically with strong oxidizing agents.

**10.4. Conditions to avoid**

Avoid direct sunlight and sources of ignition.

**10.5. Incompatible materials**

Strong oxidizers.

**10.6. Hazardous decomposition products**

Unknown.

**Section 11: Toxicological information****11.1. Information on toxicological effects****a) Acute toxicity**

ATEmix (skin): 1204,82 mg/kg (Acute toxicity, category 4)

ATEmix (oral): 86,36 mg/kg (Acute toxicity, category 3)

ATEmix (inhalation): 3,28 mg/l (Acute toxicity, category 4)

Based on the calculation method from the components.

**b) Skin corrosion/irritation**

Based on available data, the classification criteria are not met.

**c) Serious eye damage/irritation**

Based on available data, the classification criteria are not met.

**d) Respiratory or skin sensitization**

Based on available data, the classification criteria are not met.

**e) Germ cell mutagenicity**

Based on available data, the classification criteria are not met.

**f) Carcinogenicity**

Based on available data, the classification criteria are not met.

**g) Reproductive toxicity**

Based on available data, the classification criteria are not met.

**h) STOT-single exposure**

Based on available data, the classification criteria are not met.

**i) STOT-repeated exposure**

Based on available data, the classification criteria are not met.

**j) Aspiration hazard**

Based on available data, the classification criteria are not met.

# SAFETY DATA SHEET

## Section 12: Ecological Information

### 12.1. Toxicity

According to CLP and the calculation method  $(100 \cdot 0) + (10 \cdot 5,79 \%) = 57,9 \%$   $\geq 25 \%$ . The criteria for environmental toxicity are met. Aquatic Chronic toxicity, category 3.

### 12.2. Persistence and degradability

Glycerine:

Biodegradation: > 60% after 28 days, closed bottle test.

Biodegradation in water - screening tests: Readily biodegradable (100 %)

Nicotine:

Biodegradation in freshwater - screening tests: Readily biodegradable (100 %)

### 12.3. Bioaccumulative potential

Nicotine: Log Pow = 1,17 @ 18 °C

Glycerine:

Log Pow breakdown factor: -2.66 -bioaccumulation should not be expected.

Log Pow: -1.75 @ 25 °C and pH 7.4

### 12.4. Mobility in soil

Product mobile in soil and in water. Mobility of components in the mixture depends on the hydrophilic and hydrophobic properties and conditions of biotic and abiotic soil, including its structure, climatic conditions, seasons and soil organisms.

### 12.5. Results of PBT and vPvB assessment

The product does not meet the criteria for PBT or vPvB in accordance with the criteria in Annex XIII of Regulation 1907/2006.

### 12.6. Other adverse effects

This product has no influence on the global warming or the ozone layer depletion. Consider other harmful effects of the individual components of the mixture on the environment (eg impact on the growth of global warming).

## Section 13: Disposal considerations

### 13.1. Waste treatment methods

Disposal methods for the product: disposal in accordance with the local legislation. Store remainings in original containers. Do not empty into drains.

Disposal methods for used packing: reuse/recycling/liquidation of empty containers dispose in accordance with the local legislation. Do not dispose empty packing with regular household waste. Do not mix with other waste.

## Section 14: Transport Information

### 14.1 UN number

3144

### 14.2 UN proper shipping name

NICOTINE PREPARATION, LIQUID, N.O.S. (contains nicotine).

### 14.3 Transport hazard class(es)

6.1

### 14.4 Packing group

III

# SAFETY DATA SHEET

## 14.5 Environmental hazards

The mixture is not classified as dangerous for the environment.

## 14.6 Special precautions for user

Use protective measures according to section 8

## 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

## Section 15: Regulatory Information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.

**Regulation (EC) No 1907/2006** of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

**Regulation (EC) No 1272/2008** of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).

**Commission Regulation (EU) 2015/830** of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

### 15.2. Chemical safety assessment

There is no data concerning chemical safety assessment performed for substances contained in the mixture.

## Section 16: Other Information

### a) revised safety data sheet- changes

Data updating is associated with the change in regulations in respect to CLP, addition of new classification.

Update of all sections based on current information available.

### b) legend to abbreviations and acronyms used in the safety data sheet

TWA Time Weighted Average

PEL Permissible exposure limit

TLV-C Threshold limit value- Ceiling Limit

STEL Short-term exposure limit

PBT Persistent, Bioaccumulative and Toxic substance

vPvB very Persistent, very Bioaccumulative substance

CAS Chemical Abstract Service

EC No. is a unique seven-digit identifier that is assigned to chemical substances for regulatory purposes within the European Union by the regulatory authorities.

LD50 lethal dose, the point where 50% of test subjects exposed would die

LC50 lethal concentration, the point where 50% of test subjects exposed would die

EC50 half maximal effective concentration

UN number is four-digit number that identify hazardous substances

ATEmix Acute Toxicity Estimates for mixture

PEB permitted exposure for a biological material

c) list of relevant H phrases, hazard statements, safety phrases and/or precautionary statements- full text

# SAFETY DATA SHEET

H300 Fatal if swallowed

H310 Fatal in contact with skin

H330 Fatal if inhaled

H411 Toxic to aquatic life with long lasting effects

d) trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

e) other data

Classification was made on the basis of data on hazardous substances calculation method based on the guidelines of Regulation 1272/2008/EC (CLP).

The above information is prepared on the basis of current state of knowledge and relates to the product in the form in which it is used. Data relating to the product are presented in order to include safety requirements, and not to guarantee their particular properties.

In the event when conditions of application of the product are beyond control of the manufacturer, responsibility for safe use of the product is borne by the user.

The Employer is obligated to inform all employees who have contact with the product, about hazards and personal protection equipment specified in this material safety data sheet.

This material safety data sheet has been prepared on the basis of MSDS provided by the manufacturer and/or web databases and the binding regulations regarding hazardous substances and chemical agents.

The product is classified as hazardous. EXPOSURE SCENARIOS are not required.
